

Trade-in of old Broadband Meters into new FieldMan!*

Return your old products and get many advantages now!

Who is eligible?

Users of NBM-550, EFA, EMR, 8053 meters and some competitor products** can modernize their equipment by taking part in the trade-in program.*

What are the terms and savings?

Simple ones. For all authorized products returned to Narda's Sales Partner, Narda will extend a sizable discount up to 15% to the purchase of the new FieldMan.

The benefits of FieldMan

What is the new FieldMan? A light, easy to use instrument, to be operated with various isotropic probes (also NBM-probes) to provide reliable, omnidirectional EMF measurements from 0 Hz (DC) up to 90 GHz.

- 5" TFT display with 1280x720 HD, readable in bright sunlight
- Digital probe interface with USB type C connector - no more meter calibration needed
- Powerful time and frequency domain analysis for low frequency fields up to 400 kHz including Weighted Peak measurements (Future option)
- Smartphone app for remote control and photo documentation (Future option)
- Built-in sensor for distance measurements, temperature and humidity
- Built-in GPS receiver and rangefinder for easy location finding (Option)
- Significantly improved measurement accuracy vs. previous or other models

* This program is for a limited time only, until December 15, 2023.
