

Tripode in legno Mod. TR-02-A

Mounting head with centre column and Fastening screw. Centre column gives additional convenient height adjustment. These centre columns are made from precision-drawn light-metal tubing and are built into the tripod to fit precisely. Use of an extra-short centre column (10 cm) enables near-ground-level work. Double leg extension.

- Weight: 2,80 kg = 6,17 lb.
- Transportation length: 69 cm = 27 inch
- Minimum height: 52 cm = 20 inch
- Maximum height: 176 cm = 69 inch
- Load capacity: 10,00 kg = 22,05 lb.
- Vibration damping: good
